## *Original* **BERTHA**

The one it all started with... the original Bertha has changed little from its original design – perfection at inception.

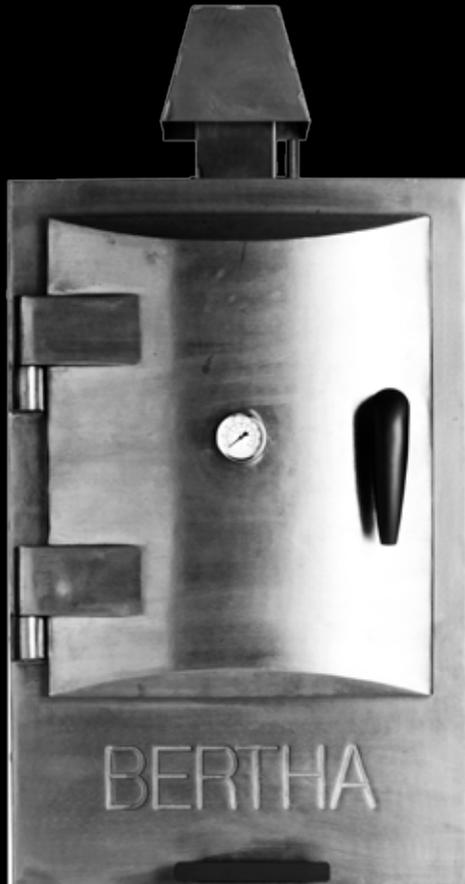

Inspired by a desire to create a charcoal oven that would create outstanding cooking techniques and speeds for chefs, and new taste experiences for its customers, the original BERTHA is making a BIG impact in the industry.

Measuring just 600mm wide (compared to most other charcoal ovens at 900mm), the small but mighty BERTHA can be accommodated in almost any kitchen, simply replace in the space of your old grill.

A BERTHA is extremely versatile, allowing you to cook from 150°C-400°C for sustained periods of time, thanks to its enclosed charcoal grill that ensures the food retains all its natural moisture and flavor, giving you unbelievably succulent, chargrilled food every time.
